AUSTRIA STRIVES TO HOLD RUMANIA NEUTRAL

Offers of Territorial Concessions To Be the Price of Friendship

THREE KINGS WILL HOLD CONFERENCE

BRITISH SUBSCRIBE TO LOAN German Successes Continue Both North and West--Russians Fortifying Border

(By Associated Press.)
LONDON, July 13.—An Athens dispatch says that the kings of Greece, Rumania and Bulgaria will soon be in conference at Athens. The attitude of Rumania toward the two groups of belligerents is again widely discussed. According to statements of correspondents on the side of the entente and the allies, Rumania is given a month in which to accept or reject Austria's offer of territorial compensation for active military assistance or friendly neutrality.

Officially it is announced that subscriptions to the British war loan have reached almost three billion dollars.

There are signs of renewed Teutonic activity by the Teutonic forces on the eastern front. Petrograd has reported lively engagements in the Bobr and Narew regions on the Prussian front, and also north of Warsaw. It is believed that General von Mackensen is receiving reinforcements.

BERLIN, July 13.—A Bukovina dispatch says that the Russians are fortifying the Rumanian frontier. A thousand men are working on trenches and wire entanglements.

GERMANS MAKE ADVANCE

(By Associated Press.)
LONDON, July 13.—Further German advances in the vicinity of Soissons, where the cemetery was captured from the French Monday, is reported from Berlin. The strike is held to be prejudicial to the production of munitions of war and their transport.

TO WHEEL BARROW TO SAN FRANCISCO

JOHN CUDDY AND WILLIAM PARKER PLAN A NOVEL TRIP TO THE EXPOSITION

"Men may go and men may come; but WE go on to San Francisco," is the slogan of two youths of Tonopah. These lads are both high school students and prove to be none other than John Martin Cuddy and William Parker.

Their idea is to wheel a wheelbarrow of their own make to San Francisco. The contrivance will contain about forty pounds of rich ore from the various mines of Tonopah. The purpose of the trip is to advertise Tonopah and the good roads of Nevada. The time limit is September 1, 1915. On reaching there before or on that date they will receive a reward large enough to satisfy them for the hardships and trouble they will encounter. But if they fail to arrive in the fair city on or before that day they will forfeit everything, and will have to conceive some plan as to how they will return to their "own home town."

At every station en route they will drop word to the Bonanza and the people of Tonopah can follow with great accuracy and interest their travels and adventures. One of the unique features of the trip will be that they will not carry any food or money but will have a canteen of water to lay the dust on their parched lips.

On Wednesday evening the Butler theater, through the kindness of Julius Smith, will give a show for their benefit. They will appear on the stage in their costume with their Hon-

The report says that Villa's officers insisted upon his retirement, believing that Robles would be able to effect some agreement with General Carranza.

NORWAY IS ASSURED OF A FOOD SUPPLY

PLENTY OF FLOUR AND WHEAT. DUE TO IMPORTATIONS FROM AMERICA

(By Associated Press.)
CHRISTIANA, July 13.—The public committee having supervision of food supplies has issued a statement to the effect that Norway is assured of sufficient flour and wheat for the present year, due to the fact that so much has been imported from the United States. Prospects for the Norwegian crop of wheat are poor, as there has been no rain to speak of in ten weeks and cold weather with much wind has prevailed throughout the summer. In many places the farmers have suffered from the lack of hay, as much of the surplus from last year has been exported to belligerent countries at exorbitant prices.

CORE SHOWS QUARTZ WITH YELLOW SULPHIDES EVIDENTLY FROM STRINGER

The diamond drill in the Umatilla, which was started at the 1200 level, is down 150 feet. It is now passing through Midway andesite, seamed with quartz. One of the cores taken out yesterday showed yellow sulphides plentifully. The texture of the quartz indicated mineralization. The core was given to Mr. Zadig, who took it to San Francisco.

THREATENING LETTERS ARE BEING RECEIVED

WRITER MENACES BRITISH VESSELS, PARTICULARLY THOSE IN MULE TRADE

(By Associated Press.)
NEW ORLEANS, July 13.—Two more letters signed "Pearce" have been received. The writer threatens disaster to British merchant and mule ships. They were delivered by mail, one to an afternoon newspaper and the other to the chief of police. The writer demands the release of Hans Hale, who is held in connection with the receipt of a similar letter by the Times-Picayune Sunday. Chief Reynolds regards the letters seriously, while others believe them to be a hoax.

COMMONWEALTH MINE TO BE SUNK DEEPER

MORE LEASES LET ON THE MONTANA PROPERTY IN TONOPAH

Charles E. Knox of the Montana Tonopah announces that more leases will be let on the workings here. Two have been signed up since his return to camp. Those now at work are taking out shipments of ore.

He has also received word that another lift is to be sunk on the Commonwealth property in Arizona, which belongs to the Montana-Tonopah. It will be sent down fifty feet from the 450, or ninth level, and will develop the so-called gold streak, which has been opened for a length of 30 feet and is nine feet wide. It runs \$5.50 a ton and so economical are the processes of extraction, that Mr. Knox says that it yields a margin of profit.

FIRST SHIPMENT OF HOT CREEK ANTIMONY

LEASERS EXPECT TO MAKE PROFIT FROM THE SURFACE OF THE CLAIMS

The first shipment of ore from the Hot Creek antimony mine was made yesterday, the ore arriving here this morning in an auto truck, which returned for another burden. The ore is as pure as can be found in a native state. It is from a seam which crops for 4000 feet and which is from four to twelve inches thick on the surface. This property, which is situated in Hot Creek canyon, is owned by Mrs. Harry McNamara, George L. Dugan and John Penola. It is under lease and bond for about a year to W. P. McCarthy, Chris McCarthy and Ed Tompkins. The ore now commands a high price.

ENGLAND WILL USE GASES AND CHEMICALS

LONDON, July 13.—An indication that England is preparing to take up the war by gases and chemicals in earnest, is seen in a call issued for men with training in chemistry to enlist for service abroad, presumably in France. They are to be enrolled in the engineer corps, height and chest measurements are waived, and the eyesight test may be taken with glasses. Recruits are promoted to be corporals on enlistment, and will be further promoted to be sergeants on the field.

SECOND-HAND TONNAGE IN HEAVY DEMAND

(By Associated Press.)
LONDON, July 13.—The demand for second-hand tonnage continues unabated and high prices are being paid, largely because merchant ship-building is at a standstill, while the yards are engaged on government work. An instance of the keen demand for tonnage is the recent sale of the Austrian steamer Concordo, which was captured at Alexandria. Although this vessel was sold a year ago last March for \$28,500, it was knocked down at \$80,500, nearly three times its previous record, at the recent sale.

PERPETUAL SLEEP RESULT OF TERROR

(By Associated Press.)
AMSTERDAM, July 13.—A Bosnian soldier who has fallen into a seemingly perpetual sleep in consequence of terror following the exposure of schrapnel, is under treatment in a war hospital at Innsbruck, Germany. The soldier was admitted to the hospital from the Galician front in March. He has been asleep ever since. The patient is terribly emaciated and must be artificially fed. By continuous electric treatment the doctors hope to bring him back to consciousness, although their efforts have not yet shown any signs of success. The soldier is insensible to needle-pricks in the nose, arms or back.

F. L. Wilson, a mining man from Salt Lake City, is in Tonopah on mining business. After spending a few days here, he will visit Goldfield, Nev.

THOMAS A. EDISON ACCEPTS THE CALL

Government Plans Board of Citizens to Develop Strength of American Navy

(By Associated Press.)
WASHINGTON, July 13.—M. R. S. Hutchinson, the personal representative of Thomas A. Edison, called today on Secretary Daniels and informed him of Edison's acceptance of the invitation to head the advisory board of civilian inventors for the purpose of forming a bureau of invention and development in the navy department. Secretary Daniels appealed to Mr. Edison to undertake the task on patriotic grounds. It is planned to have men prominent along special lines in inventive research work associated with the bureau. One of the problems will be to improve submarines and aeroplanes. Hutchinson said that Mr. Edison regarded the invitation as a call to duty.

ONE STEP TOWARD DEFENSE

(By Associated Press.)
WASHINGTON, July 13.—Upon the theory that the safety of the country must rest upon adequate development of its commercial gun and ammunition factories, Secretary Garrison has announced that he has decided to accept the resignation of Lieutenant-Colonel Odus Horney and Major William Phillips of the army ordnance bureau, who have been offered posts with companies holding large munitions contracts from European belligerents.

LACK OF PATRIOTISM OF GERMAN WOMEN

SCORED FOR BEING EXTRAVAGANT BY WEARING FULL SKIRTS

(Special to the Bonanza.)
BERLIN, July 13.—The Frankfurter Zeitung publishes a protest against the lack of patriotism of German women "who are following the new fashion of wearing full skirts." The extra cloth required by the new fashion, explains the journal, could be put to better use.

"It is quite possible that the full skirts are more sensible and more pleasant. But why must our women adopt this new fashion at the precise moment when we must be very economical in our use of wool and cotton? A simple calculation will show that it takes twice as much material to make a skirt as it did a year ago, and if one multiplies this increased consumption by the number of ladies who follow the fashion, one arrives at an astounding figure. German fashions today ought to put all considerations behind that of patriotism. They ought to consider first of all how we are to economize our small stocks of raw materials."

JACK WITTMAN BACK AND BRINGS A BRIDE

HAPPY COUPLE TO MAKE MANHATTAN THEIR PLACE OF RESIDENCE

They say that June is the month of brides but there is one young couple that disagrees with that statement. They believe that July is the month in which joy and happiness reign. That lucky couple is none other than Jack Wittman of Manhattan and Miss R. Warren of Nebraska. Wittman left the pine tree camp nearly two weeks ago for Denver. There he met Miss Warren and they decided to go to Ogden to get the final knot tied. The ceremony was a quiet one and only a few friends of the bride were present.

They spent their honeymoon in Colorado and arrived this morning. They will make their home at Manhattan. Jack Wittman is a leader of a ten stamp mill at the pine tree camp and it promises to be a larger one in the near future if the ore output increases.

ARTHUR LUBKEN, Miss Anderson, Miss Vena Fraser, Mrs. S. A. Fraser and her two children left this morning by auto for Lone Pine where they will spend the rest of the summer.

CONSULAR SERVICE OF NORWAY IS AUGMENTED

GOVERNMENT WILL HAVE REPRESENTATION AT CHICAGO AND SAN FRANCISCO

(By Associated Press.)
CHRISTIANA, July 13.—The Norwegian government has decided to establish consular offices in Chicago and San Francisco, and to increase the salaries of the Norwegian minister and the consul general in Washington and New York. The Norwegian representatives in Chicago and San Francisco are now American citizens holding only honorary posts. The decision to put these posts on a salary basis also includes the plan of sending representatives direct from Norway to take charge. It is reported that F. Herman Gade, at present the Norwegian government's commissioner at the San Francisco exposition, will be appointed to one of the other of the posts.

It is desired to improve the consular service particularly because, since the outbreak of the European war, the attention of Norwegian exporters and importers has been directed to the enormous American market more than ever before. Norway has lately considered herself handicapped by the fact that the other Scandinavian countries were more fully represented by consular offices in the United States.

PREPARATIONS FOR DEFENSE

CHRISTIANA, July 13.—Parliament has voted the sum of \$6,500,000 for building submarines and fortifying the entrance to Christiania.
